

# TABLE OF CONTENTS

<b>LIST OF MAIN SYMBOLS .....</b>	<b>7</b>
<b>LIST OF MAIN ABBREVIATIONS .....</b>	<b>8</b>
<b>PREFACE .....</b>	<b>11</b>
<b>1. DESIGN CHARACTERISTICS OF MARINE RECIPROCATING COMBUSTION ENGINES</b>	<b>13</b>
1.1. General remarks.....	13
1.2. General principles of engine design .....	15
<b>2. ENGINE BLOCKS .....</b>	<b>21</b>
2.1. Construction of blocks.....	21
2.2. High speed and medium speed engine blocks .....	23
2.3. Cylinder blocks .....	25
2.4. Engine bedplates .....	26
2.5. Components fixing the engine to its foundation .....	29
<b>3. CYLINDER LINERS .....</b>	<b>33</b>
<b>4. CYLINDER HEADS .....</b>	<b>37</b>
<b>5. AIR INLET AND GAS EXHAUST SYSTEMS .....</b>	<b>41</b>
5.1. Air inlet system pipelines .....	42
5.2. Exhaust gas system pipelines .....	43
5.3. Noise silencers.....	45
<b>6. ELEMENTS OF PISTON AND CRANK SYSTEMS.....</b>	<b>47</b>
6.1. Piston assembly .....	48
6.2. Construction of pistons .....	52
6.3. Piston rings .....	57
6.4. Piston pins .....	62
6.5. Piston rods and cross-head stubs.....	64
6.6. Connecting rods.....	65
6.7. Crankshafts.....	71
6.8. Main bearings and crank bearings .....	78
6.9. Bearing alloys .....	83
<b>7. ADDITIONAL ELEMENTS OF CRANK SYSTEMS.....</b>	<b>87</b>
7.1. Flywheels .....	87
7.2. Counterweights .....	89
7.3. Vibration dampers and suppressors .....	91

<b>8. TIMING GEAR SYSTEMS .....</b>	95
8.1. Camshafts .....	104
8.2. Tappets .....	107
8.3. Tappet push rods .....	109
8.4. Valve rockers .....	109
8.5. Valves.....	113
<b>9. ROTATIONAL SPEED CONTROL SYSTEMS.....</b>	119
9.1. Single- and dual-range governors.....	130
9.2. Characteristic indicators of rotational governors.....	132
9.3. Direct operation multi-range speed governors.....	137
9.4. Indirect operation multi-range speed governors .....	139
9.5. Electronic digital speed governors .....	145
9.6. Safety controllers.....	148
<b>10. SUPERCHARGING SYSTEMS .....</b>	151
10.1. Air volumetric compressors.....	153
10.2. Dynamic air compressors .....	156
10.3. Mechanical supercharging.....	159
10.4. Supercharging with a turbocharger.....	163
10.5. Supercharging air coolers .....	172
10.6. Supercharging of two-stroke engines.....	175
10.7. Twin and sequential supercharging systems.....	179
<b>11. FUEL SYSTEMS.....</b>	183
11.1. Construction of fuel systems .....	183
11.2. Feed pumps .....	188
11.3. Fuel filters .....	191
11.4. Injection pumps.....	194
11.5. Plunger controlled injection pumps .....	195
11.6. Valve controlled injection pumps.....	199
11.7. Fuel injectors .....	202
11.8. Auxiliary equipment of the injection system.....	206
11.9. Unit pump injectors.....	211
11.10. Adjustment of injection system components .....	215
11.11. Electronic control of fuel injection .....	221
<b>12. STARTING SYSTEMS .....</b>	225
12.1. Design of starting systems.....	226
12.2. Electric starting system.....	227
12.3. Pneumatic starting system .....	230
12.4. Engine starting assisting equipment .....	239

<b>13. REVERSING SYSTEMS .....</b>	243
13.1. Reversing engines.....	244
13.2. Reversing gears .....	250
13.3. Controllable pitch propellers.....	254
<b>14. COOLING SYSTEMS .....</b>	257
14.1. Design of cooling systems .....	258
14.2. Components of cooling systems .....	264
<b>15. LUBRICATION SYSTEMS .....</b>	269
15.1. Design of lubrication systems.....	270
15.2. Lubrication system components .....	273
<b>BIBLIOGRAPHY .....</b>	279
